To Complete Your Order

1. Contact us to discuss case suitability and cost estimate
2. Download all forms required from the website
3. **Watch the relevant video** for making a fibreglass cast impression at www.dogsinmotion.com.au
4. Purchase a casting kit online via our website (you MUST use Glad Press n' Seal as an under-wrap)
5. Complete your fibreglass impression and measurements
6. Photograph the cast impression next to the pet’s limb from the side, front and rear
7. Video the pet walking from front to back and from either side with camera at ground level
8. Send fibreglass impression and completed forms to the address above
9. Wrap the cast impression in bubble wrap and place in a cardboard box for shipping
10. We will contact you once we receive your impression and forms, to process the order and organise payment

Checklist
