

Underwater Treadmill for Sale

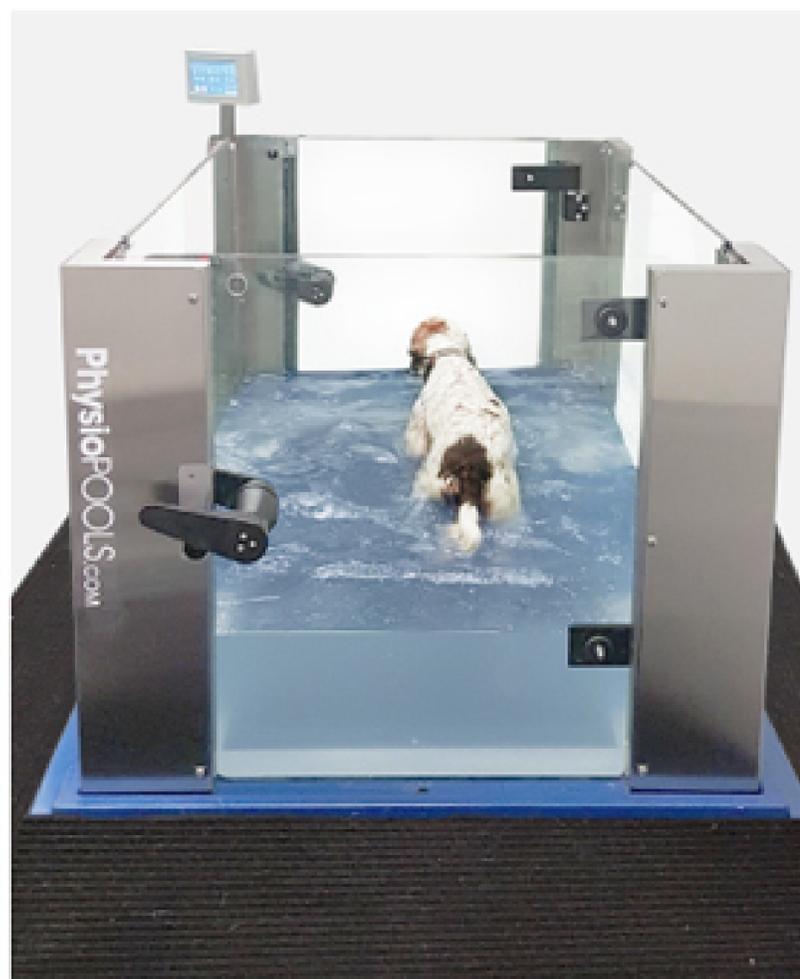

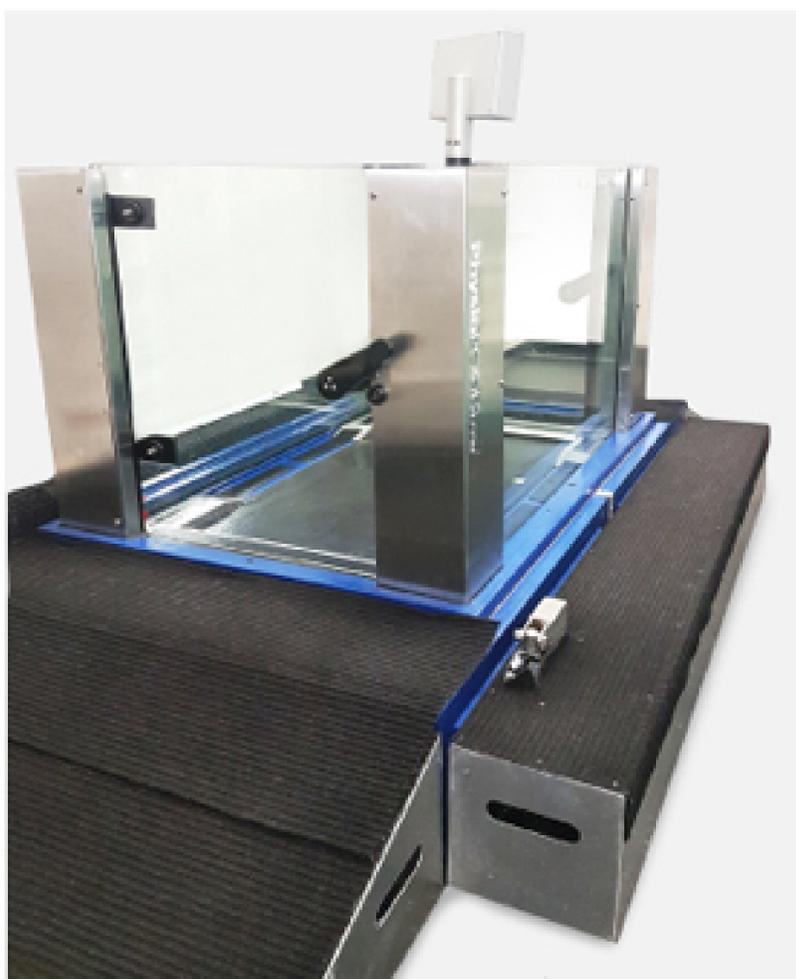

Dogs In Motion has one of our underwater treadmills for sale. In the last 5 years we have unfortunately had to move business locations twice. In our current premises we only have space for one underwater treadmill and our second one has been in storage for 2 years now. So reluctantly, rather than it continue to sit there, I'd love someone to be able to use it to help more dogs rehabilitate and strengthen.

This unit is made in Australia by Physiopools.com **Hydro Tread k9**

The Hydro Tread K9 unit is 5 years old. It can be transported and installed anywhere by the manufacturer. It will be installed with new pumps, filtration and the latest software in your preferred final location.

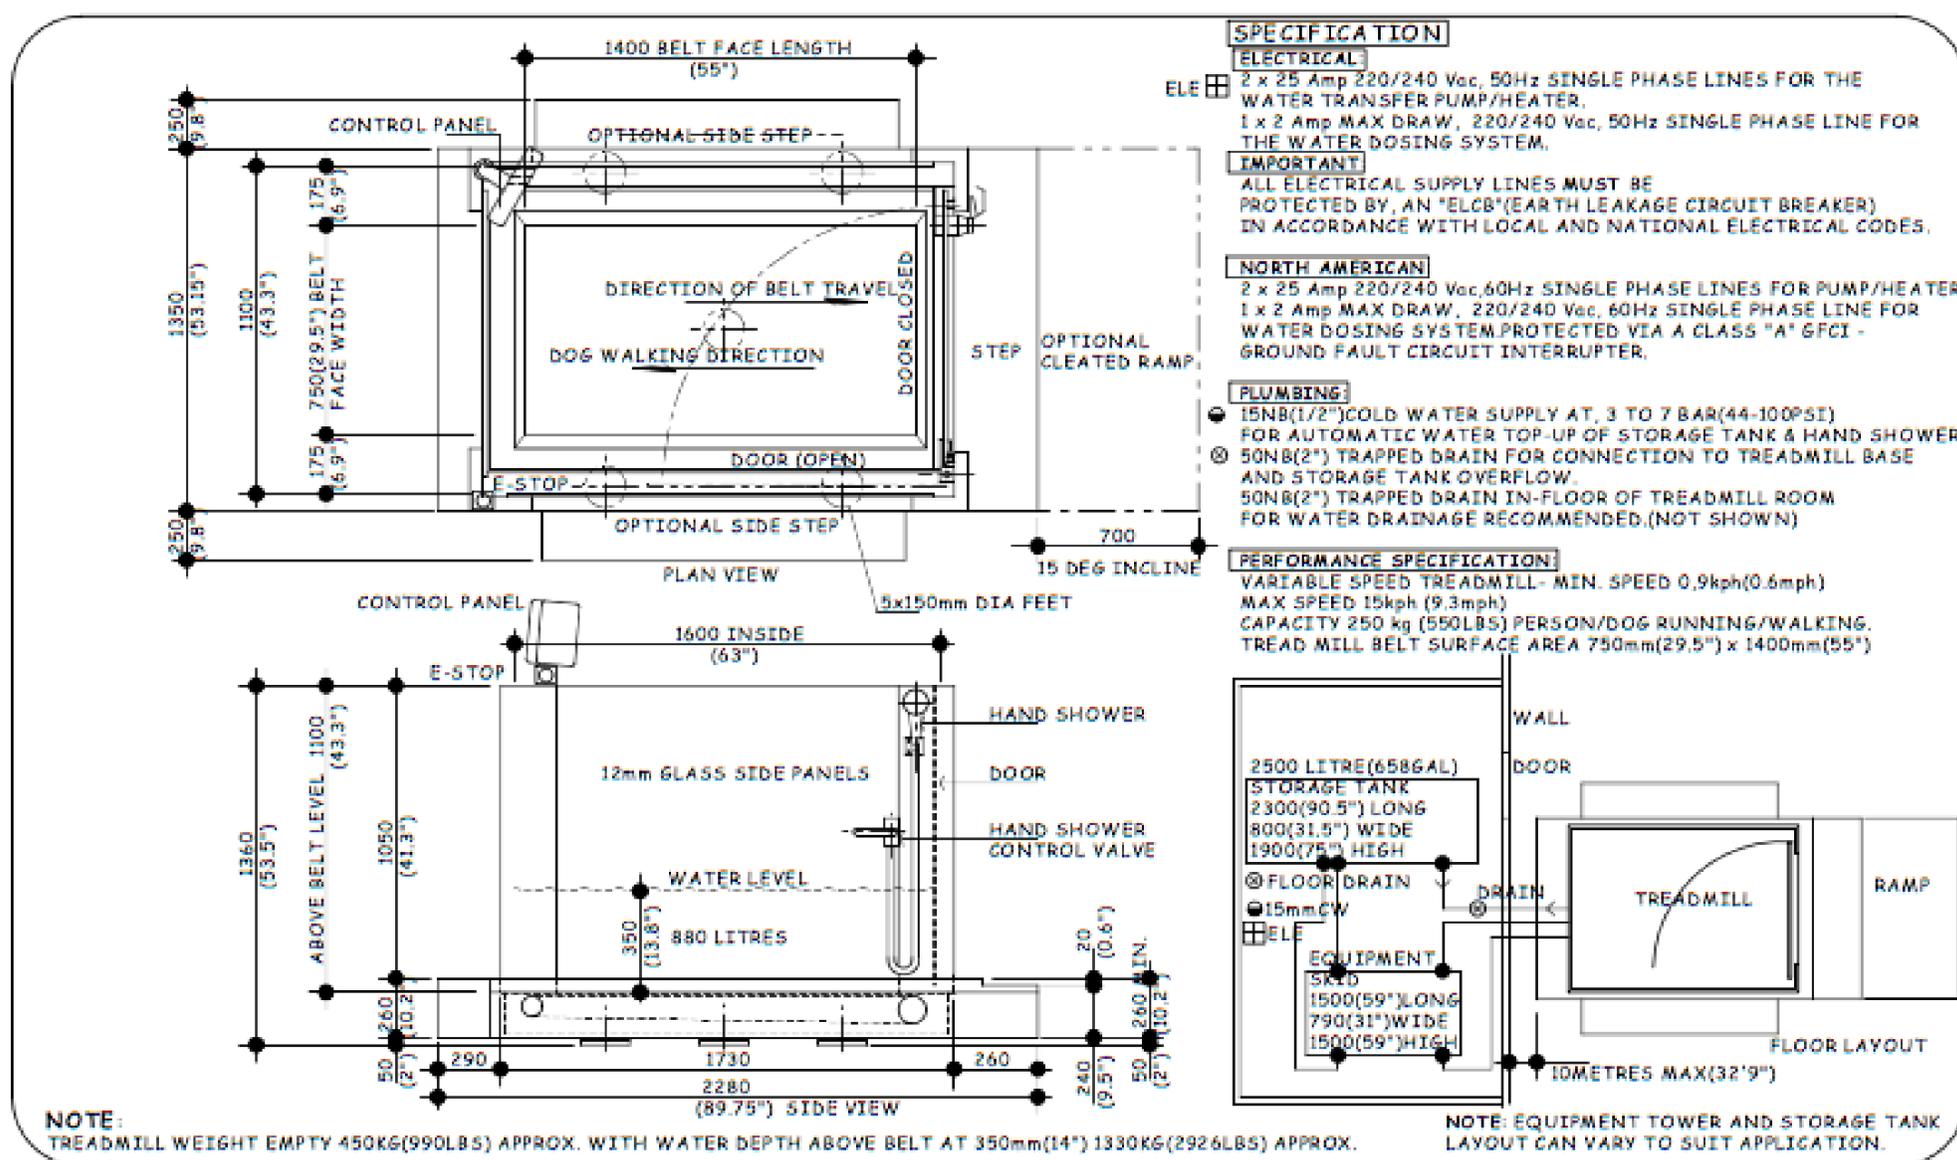

Asking price \$38,500 (excl GST).

Please see the specs for more detail
